## ARTIFICIAL FLOWER

Artificial flowers are the imitation of real flowers. In the old days, they had been called “Imitation flower”. However, in recent years, the quality of the flowers has improved and they look just like real flowers. Nowadays, “Artificial flower” is popular, named in order to distinguish them from the old type.

### Features of Artificial flower

realistic Flower  
~Reproduce flower's attractions~

We have a passion for the reproduction of natural flowering plants. By slightly changing the color tones of the Artificial flowers, it's possible to express and create the atmospheres of real flowers. They are easy to use for flower arrangements.

~Create Flower's charms~

One of the biggest charm is the ability to show originality which cannot be achieved with real flowers. For example, coat petals of Artificial flowers sprayed with glitters are trendy.

realistic Green  
~Reproduce Green's attractions~

Along with Artificial flowers, Artificial greens are given much attention to the finest details. Especially the reproduction of real plants is amazing. Artificial greens are indispensable in flower arrangements and interior decorations.

# Artificial Flower's Merit

Artificial flowers can be acquired at all seasons.

Also there are many colors and flowers which are not found in real flowers.

## Preserve the beauty

Artificial flowers don't need to be watered.

They enrich your environment with their beauty.

## Vases are not always needed.

You can enjoy decorating to your own liking.  
Putting them on table, hanging then on the wall  
and so on...

## Decorate as you like

You will not be affected by pollens and smells.

You don't need to worry about spilling water.

They are very easy to take care of.

## Decorate with your favorite things!

The stem can be bended and changed in length  
to suit your vases or general items.

They go hand-in-hand with your favorite object.

There are many outlets in Japan providing the brand of Artificial flowers "MAGIQ". Also there are schools which conduct lessons on how to handle the flowers. Please check out our website "magiq.jp" for more details.
